Dear Mayor and Council,

Georgina Island has submitted an application for the Building Canada Fund – (SCF). Our project proposal has been approved to move forward to the application phase of the (SCF).

One of the requirements is a Council Resolution from our local municipality in support of our project in order for the application to be considered complete.

Our deadline is December 19, 2014.

We are in desperate need of a new Water Treatment Plant on Georgina Island and would appreciate your support but in no way does this imply financial support.

Yours truly,

A handwritten signature in black ink that reads "Janice Taylor". The signature is written in a cursive, flowing style.
