12. PUBLIC MEETINGS

a. STATUTORY MEETING(S) UNDER THE PLANNING ACT OR MEETINGS PERTAINING TO THE CONTINUATION OF PLANNING MATTERS

(7:31 p.m.)

- (i) Application to Amend the Official Plan
MINIELLY, Edward and Constance
Part Lot 5, Concession 1 (G), Part 2, Plan 65R-1653, 6725 Old Shiloh Road
AGENT: James Feehely of Feehely, Gastaldi, Barristers & Solicitors

Report No. PB-2015-0013

Mayor Quirk explained the procedure for a public meeting at this time

James Feehely of Feehely, Gastaldi, lawyer on behalf of the applicants, addressed Council as follows:

- applicants generally supportive of the report
- subject property was owned and farmed by Howard Phoenix who purchased the land in October of 1950. Severed off lot subject to this matter to his daughter in 1975 and registered August of 1976. Connie Minielly is a daughter, the applicant and owns the severed lot. Dispute arose following Mr. Phoenix's death and resolved by written Minutes of Settlement, allowing applicants to regularize the subject property which is necessary as over the years the use of the property expanded beyond its boundaries.
- For several years, property has been operated to provide temporary living accommodation to ice-fishing visitors. Buildings are beyond the boundary and over the years only serviced by one well.
- need for severance for the expansion of boundary to accommodate its own well, also upgrades needed to septic system to service existing buildings.
- zoning amendment required to permit the use.
- Region of York granted consent to exempt this application from a Regional Official Plan Amendment

12. PUBLIC MEETINGS cont'd

- use minor, seasonal, operated with little or no impact
- hoping Official Plan Amendment is approved to allow property to be in full compliance with all municipal standards
- only issue with report is the recommendation that the rear yard be reduced in size. Suggested that if Council approves the Official Plan Amendment, that staff be directed to continue to investigate, review and negotiate that setback.

Tolek Makarewicz, Planner, addressed Council as follows;

- page 153 of the agenda, minor corrections made to Part C of the Official Plan Amendment document
 - Official Plan Amendment application submitted to legalize existing use of detached temporary accommodation for people engaging in activities on Lake Simcoe
 - property is subject to a zoning by-law amendment and lot boundary adjustment
 - in December of 2012, Committee of Adjustment deferred consideration of consent application B6-12 pending Council's decision respecting the zoning by-law amendment application
 - in March of 2013, both the zoning by-law amendment and consent application were appealed to the Ontario Municipal Board
 - Applicant agreed to submit required OPA
- Property on s/s of old Shiloh. 36 metres of frontage, rural residential and agricultural uses.
- existing buildings include a one-storey single family dwelling, lean-to shed, one-storey workshop/greenhouse and a detached two-storey detached accommodation building.
 - adjacent lot contains two-storey detached accommodation building and lean-to shed.
 - application exempt from Regional approval
 - proposed Official Plan Amendment is consistent with the Provincial Policy Statement, and conforms with the Greenbelt Plan, Growth Plan and the Regional Official Plan.
 - maintains the intent and purpose of the goals, objectives and policies of the Town of Georgina Official Plan
 - approval of the Official Plan Amendment application will allow the Ontario Municipal Board to consider the associated Zoning Amendment and Consent Applications currently under appeal to the Board.

The solicitor for the owner of the adjoining property addressed Council as follows:

- agreement reached as a result of nine years of litigation is that only the amount of land that is required to comply with the zoning by-law is to be subject to the consent boundary adjustment.
- existing property is less than half an acre in area. Recommended expansion is increasing the property size to 1.99 acres. Taking 1.5 acres from estate property.
- client's issue is how much land needs to be added to the subject property in order to regularize the uses and comply with zoning requirement
- recommendation has red line indicating staff recommended severance line. West boundary may be larger than it needs to be. Only the amount of land that is required for the zoning by-law is to be permitted.

12. PUBLIC MEETINGS cont'd

Harold Lenters, Director of Planning and Building, addressed Council as follows;

- Through mediation, one requirement would be to hire an Engineer to look at the well and septic system and come up with a plan to satisfy the needs for an up-to-date sewage system for the existing buildings. Then that was vetted through onsite sewage inspector to make sure area requested was reasonable and necessary.
- with regard to the rear lot line, there is adequate room and space on the south side to accommodate the system. Additional 12 metres is a concern as part of the lot addition.
- westerly lot line – grade difference so made sense where that line is.
- staff is comfortable that the amount of land being requested is reasonable and required
- has no information to suggest the line should be made any larger or deeper

Mr. Feehely;

- regarding the rear yard issue, unsure if planning or engineering problems may occur and would request that the specifics be left open to accommodate any changes required by staff rather than with the Ontario Municipal Board.

Harold Lenters;

- in principle, staff has no concerns allowing staff that flexibility, in the event an additional half a metre, for example, is required.

Tolek Makarewicz, Planner, addressed Council as follows;

- the existing buildings on the property do not have building permits with the exception of the single family dwelling, to staff's knowledge.

Harold Lenters;

- owner can apply to bring buildings up to code, if the use is permitted. Once legalized, the issue with the building could be put to rest as well.
- for the most part, the buildings accommodate ice fishermen. But if summer fishermen utilize the buildings, that would create no problem in terms of the use. He sees no need to restrict the use to certain times of the year. It would be a better operation it could be operated year-round.
- if an individual starts a project without a permit, an additional fee is charged in addition to the regular fee.

Moved by Councillor Neeson, Seconded by Councillor Harding

RESOLUTION NO. C-2015-0184

1. That Council receive Report PB-2015-0013 prepared by the Planning Division dated February 25, 2015 respecting an application to amend the Town of Georgina Official Plan for the property located at 6725 Old Shiloh Road.

2. That Council approve the Official Plan Amendment Application submitted by Edward and Constance Minielly to permit/legalize the use of 2 existing detached buildings for the purpose of temporary residential accommodation of a maximum of 10 guests who are engaging in recreational activities / fishing on Lake Simcoe, on the subject property legally described as Part Lot 5, Concession 1 (G).
3. That Council pass a by-law to adopt an amendment to the Town of Georgina Official Plan as discussed in Report PB-2015-0013 along with direction from Council to staff which allows flexibility respecting the proposed/proper/potential enlargement of the subject property.
4. 5. 13.2 CONSIDERATION OF REPORTS ON THE CONSENT AGENDA REQUIRING SEPARATE DISCUSSION

13.2.1 Reports from the Administrative Services Department:

13.2.1.1 Kennel Licencing By-law

Report No. DAS-2015-0008

Jacqueline Longmore-Roy, Licensing Coordinator, provided history of the kennel licensing by-law issue, stating that the new kennel by-law is intended to provide licensing and regulating with improved health and safety standards.

Diane Welsh, 10246 Old Shiloh Road;

- owner of Cantope Kennel, breeds standard poodles.
- by-law is overkill, have existing by-law that is six pages long, while the proposed by-law is fifty-six pages long
- should take into consideration Ottawa's kennel by-law, nineteen pages in English and French
- current by-law allows the shut-down of illegal/poorly run facilities already
- how many additional employees will be required to manage the new by-law?
- police checks do not guarantee an individual has not abused animals
- inquired as to how many unlicensed facilities operate in Georgina currently
- urged Council to appoint a new committee consisting of breeders, kennel operators and members of the licensing appeal committee to review the proposed by-law

Peter Welsh, 10247 Old Shiloh Road;

- owner of Cantope Kennel, breeds standard poodles for 15 years in Georgina
- breeding restrictions in the by-law are arbitrary

13.2 CONSIDERATION OF REPORTS ON THE CONSENT AGENDA REQUIRING SEPARATE DISCUSSION

- he does not follow the vaccination protocol in the by-law and are very careful with their animals.
- sales records not needed very often
- he works from 6:00am to 8:00pm and is busy, cannot make the time to complete everything that is being requested

Jacqueline Longmore-Roy:

- Ottawa kennel by-law is one of the by-laws on file in the Clerk's office
- no kennels shut down in the past; previous by-law has no enforcement tools, so there is a need to rewrite the by-law
- police check would not indicate animal abuse if not caught and charged
- cannot reveal outcomes of investigations of facilities
- 18 kennels able to be licensed under current by-law. Many more are forced to operate illegally because they cannot meet requirement for five acres of property.
- receive complaints on backyard breeders and do have people reporting to staff regularly. Without a new by-law, these kennels would be forced to shut down as they cannot meet requirements
- OVMA regulations used for vaccination regulations – aware that all breeds cannot follow the same regulations so have provided loophole through a veterinary certification regarding the type of vaccination the breed requires
- records only needed once due to an outbreak of Parvo; once is enough to require it. An outbreak could affect any dogs in that kennel for a length of time and need to take certain steps to prevent that
- proposed by-law is not requiring kennel operators to keep more records than they already keep; just a means to conduct a proper investigation, to investigate vexatious complaints in order to exonerate a kennel from any wrong-doing.

Tricia Soulier;

- owner of Pawsitive Approach Pet Services, primarily dog walking.
- has provided extended care to a dog while owner was away, dog could not go to a traditional kennel. Needed round-the-clock care and medication and no exposure to any risk of contaminants.
- Has Special Needs dogs
- no complaints against her.
- owns a unique home facility "Bed & Breakfast for Special Needs and Geriatric Animals".
- does not meet property size standards and will require an exemption

Eszter Lenhardt;

- not yet a resident but looking to move to Georgina.
- volunteers at Animal Shelter, involved in rescue work
- facilities operating as brokers – no indication of how many puppies one can accommodate at 20 weeks of age or less.

13.2 CONSIDERATION OF REPORTS ON THE CONSENT AGENDA REQUIRING SEPARATE DISCUSSION

Jacqueline Longmore-Roy;

- has not heard of puppy brokers, but is now aware of one facility that could meet that definition and will look into the issue
- recommend staff review and consider all comments made, make required changes to the proposed by-law and present it at a future date

Harold Lenters;

- kennels are only permitted in the rural (RU) zone at this time.
- zones and setbacks are a lot easier to include in a kennel by-law than in a zoning by-law

Moved by Councillor Neeson, Seconded by Councillor Fellini
