Subject: Tonights Meeting

At Council tonight, Madame Mayor Quirk, we hope you are in support of adopting an immediate resolution to allow more affordable options to allow food trucks a significantly reduced rate other than the current yearly rate. This allows for events like BBQFest and others to consider many options for their festivals, other than what is on a short list of very few companies, from a municipal short-list. By reducing the fees, on "EVENT" situations, it allows for diversity in food options; and helps create events in Georgina that we do not have a lot of or enough of. I know last year's event was lacking in food selections. Would like to see more food options at BBQFest, this year. As we understand this is also a giving event, where 100% of the proceeds from BBQFest go to three local charities. It would be disappointing to not see a resolution to this issue, and see the food trucks at BBQFest.

Thank you
