 Be it resolved that whereas a great deal of dissatisfaction has arisen throughout the Township during the last three years under the present system of performing statute labor under the superintendency of Carson E. Pollock as road superintendent.

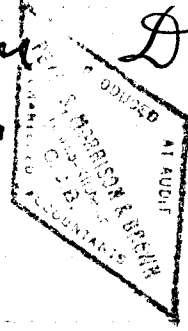

And whereas a petition signed by 260 resident ratepayers of this Municipality has been presented to this Council the present year, asking that this system be abolished, and the statute labor be performed under the old system with path masters appointed for each division,

Therefore this Council feel it would be unfair to the average ratepayer to revert back to the old system of statute labor and lose the Government Grant of 40% of the expenditure, and they desire it to be in the interests of the Ratepayers of this Municipality that the Hon. the Minister of Public Highways of Ontario, sanction the appointment of John Draper of Keswick as Road superintendent in order that the Council may still obtain the Grant above referred to.
