Municipal Council met in the Township Office on above date. All members were present. The minutes of the last meeting were discussed and moved by Wm. A. King and seconded by Frank Willoughby that the minutes be adopted as read. Carried.

Representatives of the Sport Car racing were p esent to discuss with Council the possibilities of operating a car race on Township roads. Council was of the opinion that our Township roads were inadequate for that type of racing. Reeve Pollock who attended the races in the United States at Watkins Glen explained to Council the type of road used and the protection provided for the drivers on all dangerous curves. The expense of providing such roadways and fences has made this project practically prohibitive. A letter from the Sport Car racing Association pointed out that proper roadways must be obtained in order that suitable insurance may be had to cover the drivers of said cars.

Francis Morton as member of the Trade and Commerce asked Council for a donation which the Council granted.

Elmhurst Beach Institute wrote a letter to Council asking for a donation for the transferring of a log cabin to Sharon Temple. Council was in favour of giving a donation to the Institutes as a whole but not individually . The matter was left for further investigation. Application from owners of Juranda Lodge at Orchard Beach to erect a bathing house was passed by the following recorded vote: In favour -- Frank Willoughby, John L. Doyle, Wm. A. King, R.J. Pollock, R.J. Pollock Opposed -- Clark Martin.

The application for a dock in front of Pankhurst property was accepted also the application of Swartz property on Dr. Heffering Point was passed.

The Island Grove Drainage project was discussed at some length and matter was referred to solicitor for advise as to payment of Engineer's fees.

Bylaw 1408 appointing Nomination and election days was passed. Moved by J.L. Doyle. Seconded by Wm. A. King that the bill before the Council be not read a second time tomorrow; but that rule 30 of By-law 1144 be suspended and that the bill be read a second and third time forthwith.

BELHAVEN, ONTARIO.
SEPTEMBER 21st, 1957.

Meeting was held in Township Office for purpose of discussing problem of Island Grove drainage project. Enginner Hisey was present to explain to property owners affected, the benefits of proposed drainage. The majority of those present opposed the revised drainage project presented by Engineer Hisey and after further discussion most of the owners left as there were not enough property owners present to form a majority of those affected and no petition could be signed.

In order to solve the problem of drainage Dr. Liebel discussed at some length with the Council and agreed to furnish sufficient pipe 11" by 18" across his property from roadway to Lake, as this seemed to be the best solution for the present project.

Municipal Council met in the Township office on above date: all members were present. Minutes of the last meeting were discussed and moved by Wm. A. King and seconded by J.L. Doyle that the minutes of the last meeting be adopted.

Bernard Rye approached Council as to the services of Gordon Hare with regards to fire calls and Council decided to have the matter discussed with G. Hare in the near future.

Horace Purdy requested Council to convey to him a deed of the roadway as shown on plan 304 as Margaret Ave. in order that same be sold as a lot. The matter to be referred to solicios.

R Reeve Pollock gave a very interesting report of the Mayor's and Reeve's convention held at Chatham and stressed the fact that these meetings are very important and that reolutions passed by these members and presented to government would carry more weight because of the various municipalities represented and also that the rural municipalities should be present in order that resolutions benefitting only the urban centres be not passed at the expense of the rural dentres.

Bernard Rye gave a good report of the Fireman's convention and thought that a Fireman's school was very essential in the information received for the different departments.

Wm. Goodall and Mrs. Gardwood of Jersey School presented to Council various requests for the protection and safety of the school children while going to and from school. Proposals were as follows:
1. Polio patrol before an after school. 2. Widening of road shoulders for a pathway. 3. Extension of 30 mile zone to Beverley Heights; 4. Police talks on safety at the school. 5. Forming of crosswalks with older person in charge with a stop sign. 6. School zone markers on each side of road leading to school.
The matter was left with our Police and Reeve and Deputy were authorized to consult the County Road authorities as to crosswalks and zoning markers.

Ben Quinn of Claradon Beach asked Council to have a ditch cleaned out across the Goodyear property from Highway to Lake Shore. Council asked that a petition be signed by ratepayers in the area requesting tha the work be done.

Mr. Henry of Monsell Beach complained to Council of some property owners encroaching on the roadway with hedges and fences also that the culvert at Eastnore Lodge was filled in damming back the water. It was explained that a petition must be signed by at least two-thirds of the ratepayers within the area and at least one-half of the assessment and presented to Council before any local Improvement of the roadway would be considered. The matter was left with the Road Committee and Engineer.

Carol Morton presented an application for the erection of a boat house on Lake Shore in front of Raymond Tuck property at Willow Beach just west of Tracy's store but owning to the level beach in this area, no permission was granted as the height of boat house would exceed three feet above roadway and could not be permitted.

Wm. McMullen of Pine Beach interviewed Council as to the installing of drainage pipe along the ditch by the Park and expenses of same be sent to the Beach Association and a letter of authority would be forwarded to the Township office.

Norman Cryderman explained to Council that a stop sign should be erected at the intersention of the crossroads at Elm Grove school also a cattle sign at the gateway of Harold Rose. Council agreed, provided the erection of such signs was lawful.

Council instructed Clerk to order a Union Jack for the Pole at the Community Hall.

Municipal Council met in Township office on above date to dicuss the problem of issuing a boat license to Pranas Krilivicius at Orchard Beach Upon the advice given in a letter from our solicitor the Council decided in favour of the issuance of License also the members of Orchard Beach Association had had informed the Reeve and Deputy Reeve that if properly conducted a boat livery would not be objectionable to their Association. The matter of a license for Juranda Lodge was brought before meeting and numerous comments were issued as to whether it could be run as an asset to the Beach or as a public place for various purposes. The fact that some residents had signed an affadavit stating that the Lodge was not used continuously as a boarding house thereby violating the rules of the Township by-law of a restricted area had an influence on the decision. It wa finally agreed to obtain advice of Solicitor as to the legallity of signed affadavits as yet no action had been taken to stop the operating of said Lodge.

Moved by Wm. King Seconded by J.L. Doyle

That Whereas Pranas Krilivicius owner of Mercury Lodge on Plan 103, concession 2 has applied to Municipal Council for a boat livery licence.

And whereas license has been refussed pending court action.

And whereas said action has been withdrawn due to agreement with Orchard Beach Association

Be it therefore resolved that a boat livery licence be granted to one Pranas Krilivicius on terms that same be used under Police supervision.

PASSED.
