By-laws 1939 and 1940 being by-laws setting the salaries and working conditions for office and technical employees for 1970 was referred to a special meeting to be held on Thursday September 3, 1970 at 8:30 p.m.

The meeting was adjourned to meet in regular session on Tuesday, September 8th, 1970 at 1:30 p.m.

REEVE D. J. Davidson

CLERK Jack Hopkins

Belhaven, Ontario,
August 3rd, 1970.

The Council of the Corporation of the Township of North Gwillimbury met in regular session at 1:30 p.m. in the Municipal Office at Belhaven. Members present: Reeve D. J. Davidson, Deputy-Reeve W. E. Donnell, Councillors James Poyntz, Jean M. Smith, Bruce Welch.

It was agreed that the agenda be varied to permit delegations to be received first and the minutes to be dealt with under enquiries.

DELEGATIONS:

Stephens and Baiden asked Council if they objected to them operating a used car sales yard in conjunction with their garage and service station business at the intersection of Glenwoods Road and the Queensway. Council approved by resolution.

Clyde Draper representing Willow Beach property owners informed Council that a candidate's night is planned for late in August. He complained about the walkway along Metro Road from the Sixth Concession Road to the Community Hall being delayed and suggested that it be constructed. He was informed that under the County of York Roads program it was scheduled that Metro Road in the Willow Beach area be reconstructed about 1972. If sidewalks are constructed along with a County project the province will pay 50% of the approved cost, otherwise the cost would have to be borne 100% by the municipality. Council would prefer to construct proper sidewalks when one half the cost is available from the Department of Highways.

Mr. Ehrich Ebner, propriotor of the Lighthouse Restaurant on Lake Drive in lot 16, concession 9, complained about the number of people from the beach who use the toilet facilities at his place because of a lack of facilities at the beach. There was discussion on what might be done. It was agreed that placing portable facilities on the beach was not practical. No Parking signs will be erected in the area in an effort to reduce the number of people using the beach.

Mr. Wm. Ehnat, representing the Parachute Club operating on part of lot 12, concession 7, explained the operation of the club and the efforts being made by the club to overcome the problems in public relations and tresspassing as a result of parachutists landing on adjoining properties.

Mrs. Marie Graham and Mrs. Thomas Graham who own property next to the Parachute Club property explained the intent of the two petitions recently sent to Council regarding the present and future operations of parachuting in the area. They displayed a drift indicator with a metal core which was being used and which could be a danger to hay and grain, harvesting machinery and the operators of such machinery.

Mr. Brunck, an associate owner of the Parachute Club, stated that the metal indicator cores will not be used in the future and will be replaced by hard paper cores; that radio inter communication with the parachute jumper is being tested and it is hoped that indiscriminate landing will be considerably reduced. He promised that every effort will be made to eliminate the problems that have developed.

Mr. Johnson of Willview Road presented a petition requesting No Parking on the said street. He suggested that the sign posts be more securely planted in the ground to prevent them from being removed as has happened in some areas. He objected to unauthorized fences being erected on the lake side of Lake Drive and particularly in the Willow Beach and surrounding area.

Mr. L. A. Wheeler, President of Orchard Beach Association, asked by what authority Orchard Beach Road and Hillcrest Road had been assumed by by-law as township roads. Mr. Wheeler, Mr. Wilson, Mr. Black and the Secretary of the Association, stated that in their opinion Orchard Beach Road and Hillcrest Road should remain private roads and that the said roads should be closed off at Metro Road at least for the summer months.

Mr. John F. Marshall of Orchard Beach enquired about the number of police patrols that were made in the Orchard Beach area per day. Police Chief Pollock stated that regular patrols could not be scheduled but on an average 24 hour day, five patrols would be made.

Mr. Marshall suggested that the speed limit signs on Lake Drive be inspected for obstructions to view and that No Parking signs be erected from Old Homestead Road to Boyers Road. He was informed that the Roads Department would check for obstructions to speed limit signs and that upon receipt of confirmation that the majority of the property owners in the said area were in favour of no parking, The proper signs would be erected.

Road Department Accounts to a total of $13,189.28 were approved for payment.

REPORTS:

The Parks Committee reported that policing of the park was necessary on week ends. That volunteer fireman, Doug Peters had been engaged for special police duty in the park because of vandalism and damage to park facilities over the last week end. A resolution covering the employment of Mr. Peters and setting up the authority under which he would operate was prepared.

The camping areas to be allotted are being staked and signs prepared setting out the regulations under which the park operates. The sign marking the limit of Twp park beach area next to Mrs. Rogers property is being installed.

The Roads Committee reports that the culvert will be extended to the water at the end of Rayner's Road to improve the bathing area.

The dangerous corner in Lake Drive at Land's End complained about by Mr. Shiffman is to be referred to the Roads Department Engineer for a recommendation.

Improvements to the Queensway from the Five Corners to Keswick are underway.

No Parking signs will be installed on Lake Drive from Charles Crescent to Sheppard Avenue and from the Salvation Army road to Brule Lakeway.

The minutes of the meetings of July 20th and 28th, 1970 were approved.

CORRESPONDENCE:

A letter from the County of York re Bills 142 and 143.

Council did not approve any development of the area pending a more detailed plan of proposed development.

Mr. Barns of Willow Beach representing a large delegation, opposed the additional parking lot on the grounds that overcrowding of the beach would result, that the lack of sanitary facilities with an increase of a possible one thousand people would create very unsatisfactory conditions which should be avoided if at all possible.

Mrs. Thayer also spoke in opposition to the proposed increased commercial use of the beach area by Witch Beach Enterprises Limited. She suggested that life guards and crossing guards would be required.

Clyde Draper, representing Willow Beach Association, requested that the Association be provided with a copy of the final plan for development by Witch Beach Enterprises. The Clerk was instructed to provide a copy of such plans as may be approved and made available.
