THE CORPORATION OF THE VILLAGE OF SUTTON

By-law number ..684../.986.

A By-Law for charging a fee for the inspection of plumbing.

. . . . . .

WHEREAS it is provided by regulations under the Public Health Act that where plumbing has been constructed, repaired, renewed or altered, the plumbing so constructed, repaired, renewed and altered shall not be put into use until it has been inspected and found to conform to the said regulations, but the said regulations shall not apply to:

(a) Repairing or replacing of a valve, faucet or fixture, or

(b) Work in repairing a leak or forcing out a stoppage.

AND WHEREAS according to the provisions of the Municipal Act, R.S.O. 1950, Chapter 243, Section 388, Sub-section 83 (a), the Corporation of this Municipality is authorized to pass a by-law for the charging of fees for such inspection.

NOW, THEREFORE, BE IT ENACTED BY THE COUNCIL OF THE CORPORATION OF THE VILLAGE OF SUTTON AS A BY-LAW OF THE SAID CORPORATION AS FOLLOWS:

1. Save as hereinafter provided, the fee for the inspection of plumbing, exclusive of a building-drain and a building-sewer, shall be at the rate of 50¢ per fixture unit. The number of fixture units shall be determined in accordance with the following schedule:

1 Water closet is equivalent to	6 units
1 Wash basin is equivalent to	2 units
1 bath tub is equivalent to	2 units
1 kitchen sink is equivalent to	2 units
1 laundry tub is equivalent to	3 units
1 shower stall is equivalent to	3 units
1 urinal is equivalent to	3 units
1 three-compartment sink is equivalent to ...	2 units
1 slop sink is equivalent to	3 units
1 outlet for automatic (washer) laundry is equivalent to	2 units

2. The fee for inspection when fixtures other than those contained in the schedule listed in paragraph 1 are installed shall be determined by the trap size in accordance with the following schedule:-

4" trap equivalent to ... ... 6 units

2 to 3" trap equivalent to ... ... 3 units

$1\frac{1}{4}$ to $1\frac{1}{2}$" trap equivalent to ... ... 2 units

3. The fee for inspection of a building sewer shall be $3.00.

4. Where alterations are made to plumbing without the addition of fixtures or the re-location of fixtures, a fee of $2.00 shall be made to cover the cost of such inspection.

5. No person shall require the Inspector to make the inspection required as aforesaid by the said regulations unless and until he has paid to the said Inspector the fee provided for in this by-law.

6. Any person convicted of a breach of the provisions of this by-law shall forfeit and pay at the discretion of the convicting magistrate a penalty not exceeding the sum of FIFTY DOLLARS ($50.00) for each offence.

c. In any case where there is a discrepancy between this by-law and the National Building Code, the appropriate regulation in the National Building Code shall govern.

(3) Penalties for infraction of this by-law

a. Any owner, builder, or other person who shall build or aid in the building of any structure or part of a structure or who shall remove or assist in removing or who shall repair or assist in repairing any building, which work has not been approved by the Building Inspector, or which shall in any manner contravene the provisions of this by-law shall be liable to the penalties of this by-law.

b. Any person convicted of a breach of any part of the provisions of this by-law shall forfeit and pay at the discretion of the convicting Magistrate, a penalty not exceeding Fifty Dollars ($50.00), exclusive of costs, for each offence, and in default of payment of the said penalty and costs forthwith, or costs only, may be levied by distress, and sale of goods and chattels of the offender; and in case of there being no distress found out of which said penalty can be levied, the convicting Magistrate may commit the offender to the Common Gaol of the County of York, with or without hard labour, for any period not exceeding twenty-one days, unless the said penalty and costs (if any) including the costs of the said distress and the committal and conveyance of the offender to the Gaol, are sooner paid.

c. Upon conviction for the breach of any of the provisions of this by-law, the convicting Magistrate, besides imposing a penalty under Section One- 3 (b), may order the offender to carry out the requirements of this by-law within á time to be limited by the order and in default of the offender carrying out such order, the Building Inspector or other person duly authorized, shall forthwith, at the expense of the offender take such means to carry out the requirements of this by-law as shall be necessary, and the expense thereof with the costs may be recovered by action or distress, and in the case of non-payment thereof the same shall be recovered in like manner as municipal taxes.

Section Two - Building Permits

1. When permit is required

A permit shall be obtained at the Building Inspector's office between the hours of 9 a.m. to 5 p.m., or such other hours as may be from time to time designated, by the Owner, or the authorized agent of the Owner, for the erection, alteration, enlargement, removal, moving, demolition, or reconstruction of any building or structure within the Village of Sutton. No work shall be commenced until the permit, properly completed, has been obtained from the Inspector's Office.

2. Application for a permit

a. The applicant shall submit in duplicate with the application a plan and specifications sufficient in detail to enable the Building Inspector to obtain full and complete information as to the extent and nature of the proposed work.

b. The applicant shall also submit in duplicate, a block plan showing the location of the proposed work with respect to all property lines and other buildings at present located on or near the property.

c. The applicant shall also submit in duplicate a signed statement setting forth the use or purpose of the intended building, the estimated cost and a description of the type and kind of materials to be used.

d. The applicant shall, when they are available, submit architects plans in duplicate,

3. Refusal of a Building Permit

a. If the information submitted in any application for a permit, or if the plans, specifications or block plans submitted with the application, indicate to the Building Inspector that the proposed work to be done does not comply in all respects with the provisions of this by-law, he shall not issue a permit for the work.

b. No permit shall be issued until the applications, drawings, etc., are made to conform to the provisions of this by-law.

4. Granting of Permits

a. When the application, plans, specifications,etc., conform to the provisions of this by-law, the Building Inspector shall stamp the drawings and specifications with his official stamp, issue the permit, deliver one set of application documents to the applicant and place the duplicate set on file.

b. The applicant shall at all times keep the stamped set of documents on the scene of the work and available to the Building Inspector.

5. Owner or Agent responsible

a. The granting of a building permit and inspections made by the Building Inspector during the erection of the structure, in no way relieves the owner, or his agent or the architect o f such buildings, from the full responsibility of carrying out the work in strict accordance with the provisions of this by-law or for the stability of the structure.

b. The granting of a Building permit shall not be deemed to include a license or other authority to use the premises for any business for which a license is required.

6. Deviation from the Building permit

a. The applicant, owner or his agent or architect shall not alter or modify any plans or specifications approved and stamped by the Building Inspector without the consent in writing of the Building Inspector.

b. If, during the progress of the work, the owner, his agent or architect, wishes to deviate from the stamped application documents, notice of intention to deviate and a description of the alterations to be made shall be made to the Building Inspector, in writing, and his consent shall be obtained before such deviation is made.

c. If the Building Inspector considers it necessary, a new or revised application form together with revised plans etc., shall be submitted to the Building Inspector for approval.

d. If the Building Inspector is satisfied that the provisions of this by-law are complied with, he shall issue a new or supplementary Building permit.

7. Discretionary power of the Building Inspector

In special cases, which in his judgement warrant it, the Building Inspector may permit such deviation from this by-law as he may deem proper and safe construction under the circumstances.

8. Expiration and renewal of permits

a. Every Building permit shall expire if active work is not commenced within a period of six (6) months from the date of its issue.

b. When the Building permit has so expired it may be renewed within a reasonable length of time at the discretion of the Building Inspector.

c. The proposed work shall comply with the provisions of this by-law as revised to the time of the renewal.

9. Revocation of the Building Permit

a. Every Building Permit shall be subject to revocation by the Building Inspector should he find the work being done, under such permit, does not fonform reasonably in every respect with the requirements of this by-law, or, if in the opinion of the Building Inspector, satisfactory progress is not being made to complete the work.

b. The revocation of the Building Permit shall be in writing and shall be served on the owner, his agent or architect, or in their ansence on any person doing any of the work.

c. The revocation of a Building Permit shall contain in detail the reasons for such revocation.

d. After the revocation of a Building Permit all work shall at once cease and shall not recommence until a new permit is issued or the original permit renewed.

10. Right of entry to buildings

a. The Building Inspector shall have the right to visit, enter and inspect, from time to time and at all resaonable hours any building which is in the course of erection, alteration, reconstruction, or being repaired or wrecked.

b. The Building Inspector shall have the right of entry as above, into any building which he has reason to believe is in dangerous or defective condition in regard to its construction or through damage by fire or accident.

c. The Building Inspector shall have the right of entry as above into any building which is being used for a purpose for which the construction is unsuited and is a danger to life or limb or public property.

d. The Building Inspector shall have the right of entry as above to any building which he has reason to believe is being altered or reconstructed without a permit having been issued.

11. Fee for issuance of a building permit

a. The Building Inspector shall collect, prior to the issuance of a permit, the proper fee as set out in section b. below.

b. The scale of fees shall be as follows:

1. New buildings, cost not to exceed $ 2,000.00	-	$ 2.00
a. For each additional $ 1,000.00 up to $ 100,000.00 - per $ 1000.00	-	1.00
b. All above $ 100.000.00 -per $ 1000.00	-	.50

12. Posting of Building Permits

a. The Building Permit when obtained from the Building Inspector shall be posted at the site of the work in a conspicuous place where all authorized persons may readily see it.

b. It shall be the applicant's responsibility to protect the permit from damage by weather or accident.

Section Three - General

1. Effect of New Construction on existing buildings

New construction on any existing building at the date of this by-law shall comply with the provisions of this by-law.

2. Existing Buildings

Nothing in this by-law shall require the removal, alteration or abandonment of, nor prevent continuance of the use or occupancy of any existing building, unless in the opinion of the Building Inspector such building constitutes a hazard to safety and adjacent property.

3. Dangerous Buildings

a. Wherever any building or part thereof is considered by the Building Inspector to be in such a condition as to be dangerous to life or limb, or to be in danger of being set on fire from any defect of its construction, the owner or agent of such building shall be notified in writing by the Building Inspector specifying wherein such danger exists or where such building is unsafe or defective.

b. If the owner or his agent neglects forthwith to put such building in a safe condition or pull down the dangerous parts thereof such as will satisfy the Building Inspector, such owner or his agent shall render himself liable to the penalties of this by-law.

4. Construction Restrictions

a. No building shall be erected within the limits of the Municipal Corporation of the Village of Sutton for all the year occupation as a dwelling house (except as hereinafter provided) that does not conform to the following requirements;

1. Every such building shall be provided with a foundation, the footing or lowest course of which shall be at least four feet below the finished grade or ground line, the foundation to rest upon solid ground and not upon filled material or soil containing an admixture of arganic matter, and all such foundations shall be made of stone or concrete. Veneering shall not rest or be supported by wood lintels or beams, and all such buildings shall be equipped with one or more chimneys, made of bricks, stones or concrete, and shall be built from the ground up, or otherwise safely supported from the foundation. All such buildings shall be equipped in building the walls and roof with usual and sufficient beam joists, rafters and supports.

3. The ceiling of every habitable room in every such building shall be not less than eight feet in the clear above the floor of such room, except in attics where the ceiling of every habitable room shall be of at least eight feet in the clear above the floor for at least one-half of the floor area of such room.

4. In every room in such building, kitchenettes, bathrooms and rooms containing a water closet included, there shall be one or more windows opening to the external air, the total area of which shall be at least ten per cent of the floor area of the room

b. Buildings erected and to be used exclusively as summer homes shall be subject to the foregoing regulations except that they may be erected without other foundation than good and sufficien -t posts planted to a depth of at least three feet and to a solid earth foundation, and need not be lathed or plastered or otherwise covered on the inner sides of the outer walls, or such buildings may rest on cement pads 18" x 24" (8).

c. Dimensions of Studs, RAFTERS, JOISTS, AND CEILING JOISTS

1. Height of Storeys		Minimum Requirements		
a. Accessory Buildings not exceeding 500 square feet in area	-	2"x4"	- 16"	centres
b. Two storey dwellings or less and upper two storeys of three storey dwellings	-	2"x4"	- 16"	centres
c. Bottom storey of three storey dwellings	-	2"x4"	- 12"	centres
" "	- two	2"x4"	- 16"	centres
" "	-	3"x4"	- 16"	centres
" "	-	2"x6"	- 16"	centres

2. The length of studs between floors or between floor and roof shall not exceed the following lenghts;

a.	2"x4" studs	- 14	feet
	3"x4" studs	- 14	feet
b.	2"x6" studs	- 20	feet

3. Double studding shall be provided at all internal and external angles of walls and bearing partitions and wherever bearing partitions intersect. Double studding shall be provided around all windows, doors and similar openings.

4. Studs shall be so placed at all corners and intersections in such a way as to prevent extension of lath through a partition from one room to another.

d. Base plates or sills

1. Base plates or sills shall be provided for all studs which bear on unit masonry or concrete.

2. The thickness shall be not less than 2 inches nominal measurement.

3. The width shall be at least the width of the studs.

4. The sill or base plate shall be anchored adequately to the masonry or concrete by anchors placed at intervals not exceeding four feet.

5. Base plates or sills below grade shall be of decay resistive wood or chemically treated by an approved process.

e. Top Plates, and Ribbon Boards

1. Top plates shall be doubled and lapped at each intersection of walls or partitions.

2. Joints in upper and lower members shall be staggered with an overlap of not less than 4 feet.

3. When studs extend above the bottom of the joists a 1 x 4 ribbon board, gained its full thickness into the studs, shall be provided.

f. Bridging

1. Bl ock bridging not less than 2 inches nominal thickness by not less than the studs in width shall be provided in all stud partitions exceeding 10 feet in height. They shall be tightly fitted at approximately mid-height of the studs.

2. When exterior sheathing is omitted as provided in section h.(2) then 4 horizontal nailing strips shall be provided between the studs as may be necessary for adequate nailing to securely fasten the wall covering in place.

g. Headers

1. All openings which involve the cutting of a stud and which are 4 feet wide or less shall be provided with a header consisting of 2 - 2x4's on edge securely fastened together and shall have solid bearing over the full width of a stud which extends to the floor.

2. The framing over openings greater than 4 feet shall be trussed or shall be provided with adequate lintels having a bearing as for headers.

h. Sheathing

1. Sheathing shall be placed on the inside or outside of the studs in any building provided that it may be omitted as shown in the following sections (2) and (3).

2. Sheathing may be omitted where galvanized iron is permitted as an exterior wall covering provided the studs are properly braced.
3. Sheathing may be omitted where wood siding of not less than 5/8 inch thickness (actual) with lapped or tongued and grooved joints is used and when it is secured to studs with not less than two nails to each stud.

4. Tongued and grooved or shiplap sheathing shall have an actual thickness of not less than 5/8 of an inch. Rough lumber or boardings shall be not less than one inch nominal thickness.

5. Wood sheathing shall be secured in place with nails not less than 2½ inches long with an average spacing of nails along the studs o f at least 4 inches.

i. <u>Fibre Building Board o r Gypsum Sheathing B oard</u>

1. When this material is used as sheathing the spacing of studs shall not exceed 16 inches.

2. The sheets shall be laid with the length horizontal with vertical joints staggered.

3. Both walls at each corner shall be provided with 1x4 or larger diagonal braces gained into the studs. These braces shall cross at least three studs and wherever possible shall extend from sill to plate. Sufficient additional braces shall be added to give maximum distance between them at the sill of 15 feet.

4. Fibre board shall be secured with nails not less than 1½ inches long driven into studs at intervals not exceeding 3 inches along all edges and not exceeding 6 inches along intervening studs and headers.

5. Gypsum sheathing board shall be secured by nails not less than 2 inches long placed at intervals not exceeding 4 inches along all studs and headers.

j. <u>Plywood Sheathing</u>

1 .Plywood shall be of both moisture resistant and exterior quality to comply with specifications in the National Building Code.

2. The thickness of the plywood shall be not less than 5/16 of an inch.

3. Studs shall be placed on at least 16 inches centres.

4. Sheathing shall be nailed with 2 inch nails spaced not more than 6 inches ap art on edges and not more than 12 inches on i ntervening studs. It shall be nailed to each stud.

5. Plywood shall be protected by an exterior covering unless it is of exterior quality and at least 3/8 inches thickness.

k. Floor joists

1. No joists of a nominal dimension less than 2 by 8 shall be used, up to 12 ft. span and over 12 ft. span 2 by 10 shall be used.
2. Joists supporting partitions which run parallel to the joists shall be doubled. They shall be securely spiked together or shall be separated by solid bridging at 4 foot centres for the passage of pipes or ducts.
3. Cross bridging on not more than 8 foot centres shall be placed between all joists of which the span is greater than 8 feet.
4. All joists shall have a bearing of at least $3\frac{3}{4}$ inches or shall be supported on a ribbon board, ledger board or steel joist hangers. Joists resting on ribbon boards shall overlap the studs and shall be securely nailed into the side of the studs.
5. The bearing end of every joist bearing on masonry shall be separated from all other wood members by at least $4\frac{1}{2}$ inches of solid masonry and shall have a bearing of at least $3\frac{1}{2}$ inches.
6. The bearing end of all joists in masonry walls shall be fibre cut so they will fall freely without disrupting the wall in case of fire.
7. Joists which overlap at a bearing point shall be securely nailed one to the other.
8. Holes or notches where necessary shall be cut near the ends of the joists. If they are cut within a distance of three times the depth of the joist from either end the notch shall not exceed 1/5 the depth of the joist. If they are cut in the centre beyond the limit of three times the depth of the joist from the end, the depth of notch or diameter of hole shall be deducted from the effective depth of the joists for calculations of strength.
9. Header and trimmer joists over 4 feet long shall be doubled.
10. Header joists over 6 feet long and trimmer joists over 12 feet long shall be hung in beam hangers or secured in place by other approved devices.
11. The clear height between joists and the ground shall be not less than 1 foot 6 inches.
12. Ventilation to under floor areas will be provided on the basis of 20 square inches for each 25 linear feet of exterior wall. Cross ventilation shall be provided.

l. Ceiling Joists

1. Ceiling joists shall be designed as floor joists when such joists support a flat roof or when the attic area is or can be used for habitable or storage space.

2. In no case shall the ceiling joists be of lesser size than 2x4 nominal dimensions.

m. Roof Rafters

1. Roof rafters shall be designed to carry the dead load and snow load imposed on the surface of the roof and on the roof itself.

2. Roof rafters shall be anchored to the wall plate

3. Roof rafters shall be securely fastened to floor or ceiling joists to prevent spreading or if this is not practicable collar ties shall be provided.

4. Rafters and trimmers around dormers and other similar openings shall be doubled.

n. Roof Coverings

1. General - every roof shall be covered with one or more of the following coverings.

a. Bituminous Composition Roof Coverings
   1. Built up type

AGREEMENT WITH MUNICIPALITY
BORROWING BY PROMISSORY NOTE

AGREEMENT

made this fourth day of January 19 54

BETWEEN THE MUNICIPAL CORPORATION of the Village of Sutton hereinafter called the "CORPORATION,"

OF THE ONE PART,

and

THE BANK OF NOVA SCOTIA, hereinafter called "The Bank,"

OF THE OTHER PART.

WHEREAS by a By-law passed by the Council of the Corporation on the fourth day of January 1954 authority was given to the Head and Treasurer of the Corporation to borrow from the Bank the moneys therein mentioned, and by such by-law this agreement was authorized.

AND WHEREAS the Corporation desires to borrow the said moneys on its promissory notes and the Bank in consideration of the execution of this agreement by the Corporation has consented thereto subject to and upon the terms and conditions hereinafter set forth.

NOW IT IS HEREBY AGREED that the said moneys may be borrowed by the Head and Treasurer of the Corporation from the Bank upon the promissory notes of the Corporation signed by the Head and Treasurer and sealed with the seal of the Corporation.

IT IS ALSO AGREED that any moneys advanced to the Corporation from time to time upon such promissory notes shall bear interest at the rate of 4½ per cent. per annum which shall be added at the end of each month to the amount advanced up to that time, and when added shall for the purpose of computing subsequent interest be deemed to be part of the advance.

IT IS FURTHER AGREED that the Corporation shall repay the moneys so advanced with accrued interest at the rate aforesaid on such date as shall be agreed with the Bank and in any event not later than the 31st day of December next ensuing.

As security for repayment of the moneys so advanced by the Bank with interest as aforesaid, all the revenues of the Corporation of whatever nature and kind are hereby charged to and in favour of the Bank, and the Bank shall have a lien upon all such revenues until the charge hereby and by said by-law created is satisfied.

IN WITNESS WHEREOF the Corporation has caused its corporate seal to be hereunto affixed under the hands of its Head and Treasurer the day and year first above written.

Dear Sir: Re: Urban Municipalities
1954 Road Expenditure By-law

Please be advised that the Department has carefully considered the by-law to provide for the expenditure of $ 9,500.00 under Part VII of The Highway Improvement Act in the year 1954 as submitted by your Municipality.

The Honourable Geo. H. Doucett, Minister of Highways, has approved of a maximum total expenditure of $ 9,000.00 on which subsidy may be payable under the said Act.

This overall approval is given subject to approval of each individual work of construction, location, type, etc., and you are requested to report all such proposed works to the District Municipal Engineer at **Toronto, Ontario.** Your full co-operation will be appreciated.

A copy of the By-law as approved is returned herewith.

Yours very truly,

J.M. MacInnes,
Chief Municipal Engineer.
